Akash Ganapathy

UI/UX Designer & Frontend Developer

Chennai, India +91 9944601512 akashganapathy367@gmail.com

PROFILE

I design interfaces for complex products and build them in Angular and React — analytical thinking, user-centred design and frontend execution in one workflow.

EXPERIENCE

UI/UX Designer — TestYantra Software Solutions Pvt. Ltd.

February 2026 – Present

Client: Tierone OSS Solutions

Responsibilities include:

- Enterprise interface design
- Requirements analysis
- Figma prototyping
- Angular frontend implementation
- Reusable components
- Responsive interfaces

UI Designer — Fosters Technologies Private Limited

February 2023 – January 2026

Location: Bangalore, India

Responsibilities include:

- UI design
- Wireframing
- High-fidelity prototyping
- Visual consistency
- Interface layouts
- Reusable UI patterns

EDUCATION

- **M.Sc. Psychology** — Annamalai University, 2022
- **B.Sc. Psychology**, Completed 2020

UI Engineering	Responsive Interface Implementation · Reusable Component Development · Design Systems & Visual Consistency · Design-to-Development Workflows
Tools	Visual Studio Code · GitHub · Vercel · GitLab

SELECTED PROJECTS

- **BreakFit — Smart Breakfast Solutions** — A breakfast app that makes the daily order a few taps: browse, customise, schedule, subscribe and pay — with a health tracker and dietician insight.
  `breakfast-app-one.vercel.app` `www.behance.net/gallery/239959937/BreakFit-Smart-Breakfast-Solutions`
- **IoT Device Monitoring and Observability** — One operations console for a 100,114-device IoT fleet: device health, SIM-applet rollout, security posture and network analytics.
  `iot-dashboard-snowy.vercel.app/#/login`
- **Validate — Secure Background Verification** — “Verify once, share anywhere”: a mobile app concept that keeps employment, education and background verification in one place.
  `UX case study on Behance`
